Letters of Transmittal

Saskatchewan

The Honourable Fred W. Johnson,
Lieutenant Governor,
Province of Saskatchewan

Sir:

I have the honour of submitting the annual report of the Department of Rural Development for the year ending March 31, 1983.

Respectfully submitted,

Louis A. Domotor

Louis A. Domotor,
Minister of Rural Development.

Honourable Louis A. Domotor
Minister of Rural Development

D. V. Gilewich,
Deputy Minister of Rural Development

Saskatchewan

The Honourable Louis A. Domotor,
Minister of Rural Development,
Regina, Saskatchewan

Sir:

I have the honour of submitting the annual report of the Department of Rural Development for the year ending March 31, 1983.

Respectfully submitted,

D. V. Gilewich

D. V. Gilewich,
Deputy Minister of Rural Development.

Objectives

Primary Objectives

- To provide financial and technical services to rural municipalities in the completion of designated programs to improve the quality of life for rural residents;
- To ensure the strength of local government;
- To respond to the recommendations and directions as designated by the Saskatchewan Association of Rural Municipalities and rural residents.

Functions:

Designated Road Program

- To provide financial and technical assistance
- To ensure roadway standards
- To ensure traffic safety standards

Community Planning

- To assist rural municipalities with their community planning and resource management endeavours
- To encourage appropriate municipal land use and resource management practices within rural Saskatchewan
- To administer "The Planning and Development Act" through the process of reviewing development plans, zoning bylaws and subdivision proposals pertaining to Rural Municipalities
- To administer the Abandoned Railway Right-of-Way Land Use Program
- To represent Rural Development in the Environment Impact Assessment review process
- To review rural-urban annexation proposals from a Rural Development perspective

Municipal Management and Finance

- To provide an advisory and consultative service
- To draft proposed legislative amendments
- To provide statistical reports
- To provide on-the-job training for R.M. employees
- To review financial statements, budgets and accounting procedures

Revenue Sharing

- To provide funding through annual grants to rural municipalities to ensure fiscal viability

Planning and Research

- To provide road planning services
- To provide input for program and policy development to best serve the interests of rural municipalities
- To determine the unconditional revenue sharing funds to rural municipalities and organized hamlets
- To conduct departmental research on policies and programs effecting rural municipalities and rural residents
- To administer the traffic safety program that provides financial and technical assistance to rural municipalities

Bridge Program

- To provide financial and technical assistance for the construction and maintenance of bridge facilities
- To maintain an inventory of bridges and the condition of bridges in Rural Municipalities

Ferry Program

- To operate fifteen ferry crossings free of charge as part of traffic management and transportation access in the municipalities

Municipal Employees' Superannuation

- To administer a program which provides long term income security for participating employees and their dependents

Municipal Grants

Rural Revenue Sharing

Under the province's revenue sharing program, Saskatchewan Rural Development distributes annual grants to R.M.'s. In 1982-83 rural municipalities shared over $42 million for specific projects and locally determined programs.

Unconditional Grants

Grants totalling $14,961,920 were paid to rural municipalities on an unconditional basis according to the established formula.

Conditional Grants

Conditional grants for rural municipalities were paid out during the year under review for the following purposes:

Primary Grid	$ 5,714,910
Main Farm Access Roads	13,890,780
Bridges	3,010,500
Maintenance	1,375,080
Industrial Access Roads	424,410
Resort Roads	485,260
Traffic Safety	26,800
Traffic Counts	127,200
Regional Park Roads	832,710
Indian Access Roads	12,740
Ambulance Service	1,080,880
Timber Roads	35,690
Fire	208,190
Recreation	183,490
Total	**$27,408,640**

Inter-Municipal Programs

Municipalities which agree to offer common road ambulance, recreation and fire protection services to their residents are eligible for inter-municipal revenue sharing grants.

Two or more neighbouring municipalities may qualify through a formal agreement, and in some cases an association is necessary to administer the services. It is up to an individual municipality to initiate the agreement and to work out the terms and conditions.

Assistance to New Rural Municipalities (former L.I.D.'s)

This grant program assists recently formed rural municipalities (former Local Improvement Districts) in maintaining a desirable level of service, comparable to adjoining rural municipalities. The objective is to provide grants on a five-year declining basis from the year each Local Improvement District attained self-government. During 1982-83, the last year of the program, $93,330 was paid for this purpose.

Assistance for Construction of Roads in Indian Reserves

This program provides for the construction of designated roads on Indian Reserves. Under agreement with the Federal Government the Province recovers 80% of construction costs. Grants in the amount of $16,450 were paid during 1982-83.

Supplementary Road Ambulance Grants

In addition to regular funding provided through the Revenue Sharing program, supplementary grants totalling $147,720 were paid to rural municipalities in 1982-83 for road ambulance services.

Qu'Appelle Scenic Road

A joint project to construct a scenic road in the Qu'Appelle Valley from Tantallon west to Highway No. 9 was completed in 1982-83. This was achieved through the co-operation and funding of three levels of government:

Federal	407,400
Provincial	221,880
Municipal	116,810
	746,090

Drafting Services

The Drafting Services Branch of the Department of Rural Development provides cartography, graphics, drafting and technical services to all branches and districts of the Department; with map sales and service to outside agencies and the general public.

During the year under review this Branch prepared 10 original compiled plans for organized Hamlet status, 13 R.M. zoning maps were drafted depicting land use criterias and 299 R.M. project maps were updated showing 1270 km of new construction. 75 rural inventory maps were revised from field notes which now completes over half of the province to visual identity standard. The increasingly popular 1982 Saskatchewan Grid road map was revised using an injury and accident survival theme and 60,000 copies were distributed.

Traffic safety displays were prepared for the Safety Fairs throughout the province, and Department program displays were revitalized for Mexabition, S.A.R.M. convention, etc.

Board of Examiners

The Board of Examiners (Rural), appointed under the provisions of The Department of Rural Development Act, is responsible for the issuance of certificates of qualification to secretary-treasurers of rural municipalities and to other qualifying individuals. The Board consists of one staff member of the Department who serves as chairman, one representative from the Saskatchewan Association of Rural Municipalities and one representative from the Rural Municipal Secretary-Treasurers Association.

Type of Certificate	Number Issued — 1982-83
Rural Class "C"	23
Rural Class "A"	15
Rural "Superior A"	3

Municipal Employees' Superannuation Plan

Composition of Commission

The Commission administrating the provisions of The Municipal Employees' Superannuation Act is comprised of nine members:

- Chairman — Appointed by the Lieutenant Governor in Council
- Member representing Urban Employees — Appointed by the Minister of Rural Development
- Representative of Policemen and Firefighters — Appointed by the Minister of Rural Development
- Six other members named by their respective associations namely:
  - The Saskatchewan Urban Municipalities Association
  - The Saskatchewan School Trustees' Association
  - The Saskatchewan Association of Rural Municipalities
  - The Rural Municipal Secretary-Treasurers Association
  - The Association of School Business Officials
  - The Association of Community Colleges

Participants in Plan

- Employer Members — (approximately 725)
  - some cities
  - towns and villages
  - rural municipalities
  - school divisions
  - community colleges
  - regional public libraries
  - various associations, e.g. SUMA, SARM, etc.
  - Municipal Hail Insurance Corporation
- Employee Members — (approximately 5,400)
  - city and town administrators
  - policemen and firefighters
  - secretary-treasurers
  - teacher aides
  - motor patrol operators
  - caretakers
  - clerical workers

New Members

- During 1982 the Northern Lights School Division (Prince Albert) and the Centennial Park School (North Battleford) became employer members of the Plan, adding approximately 160 employees to the Plan membership.

Growth of Plan

(Millions of Dollars)

	1982	1981	1980
Investment Holdings — amortized cost —	78.4	63.4	51.7
Contributions to Plan — Employee and Employer —	9.6	8.1	6.9
Superannuation Payments — Formula benefits and annuities —	1.478	1.010	.682

Since the unit formula benefit plan which made it compulsory for municipal employees to contribute did not come into existence until July 1, 1973, the ratio of superannuated members to contributing members is very low. This being the case, the current pension costs are only a small percentage of current contributions.

Solvency

The Municipal Employees' Superannuation Plan is fully funded by contributing municipal employees and their employers; however, the Provincial Government pays all administration expenses incurred in the administration of The Municipal Employees' Superannuation Act. An actuarial study completed late in 1981 indicates that the fund is in excellent financial condition.

Annual Report

The Municipal Employees' Superannuation Commission prepares its own annual report each year which reflects all the details of the plan's activities, and includes audited financial statements.

Community Planning Services

The Community Planning Services Branch assists the province's 299 rural municipalities in their community planning endeavours. These include the preparation and establishment of development policies and the consideration of development proposals. The Planning and Development Act provides for the preparation of municipal development plans and zoning bylaws. Municipalities may co-operate with adjoining local governments in their community planning activities through district planning agreements.

At the end of the 1982-83 fiscal year there were:

- seventeen (17) inter-municipal planning districts.
- two (2) rural municipal development plans in effect.
- 132 rural local governments with (zoning) controls.

Administrative responsibilities of the Branch include The Planning and Development Act and The Municipal Expropriation Act as they pertain to rural local governments. The Branch represents Rural Development in the Environmental Impact Assessment review process. Liaison with Urban Affairs is maintained with respect to municipal boundary alterations; inter-municipal and lake management planning; and the Qu'Appelle Valley planning program, through an inter-agency policy committee and regular referrals.

Branch staff assists local advisory committees responsible for policies respecting the management and disposal of thirty-five (35) abandoned railway rights-of-way.

During 1982-83, the Branch assisted rural municipalities with various community planning, land use and resource management issues including agricultural land preservation, urban fringe and lakeshore development problems. In this regard there were:

- grants totalling $33,000 for lake management planning programs.
- thirty (30) new zoning bylaws adopted.
- fifty-nine (59) zoning bylaws amended.
- thirty-five (35) rural municipalities in the process of adopting land use controls.

In liaising with other agencies, the Branch handled the Rural Development review with respect to:

- eight (8) Environmental Impact Assessments.
- twenty-six (26) municipal boundary alterations.
- twenty-six (26) subdivision referrals from Urban Affairs.

Statutory Branch subdivision related reviews involved:

- 1,429 subdivision proposals.
- 885 subdivision approvals.
- nineteen (19) subdivisions refused.
- 413 subdivision applications active.
- nineteen (19) subdivision application files closed.
- seventeen (17) subdivision re-approvals.
- ten (10) municipal expropriations.
- one (1) subdivision replot.
- nineteen (19) Public Reserve status changes.

The responsibilities of the Branch were carried out from offices in Regina and Saskatoon. Branch staff, including the Director, was comprised of four professional planners and five non-professionals. To supplement the permanent staff one technician and three secretaries were hired on a temporary basis.

In summary, rural municipal interest in the Branch's programs continues to be significant, especially where urban fringe problems are being faced. The aggregate statutory workload increased somewhat in 1982-83 over the previous year, particularly with respect to subdivision approvals and new zoning bylaws.

Planning and Research

During the year under review, the Planning and Research Branch was responsible for designating and co-ordinating road system planning for rural municipalities, conducting research into rural issues, development and transportation, distribution of unconditional revenue sharing funds and provided research, technical and financial assistance to rural municipalities to reduce the social and economic loss due to municipal traffic accidents.

Road Planning

During the 1982-83 fiscal year, applications for roadway changes totalled 875 kilometres in 90 rural municipalities and several maintenance areas. These locations were examined and 310 kilometres of roadway were classified into various road assistance programs. The designated road system in 1982-83 consisted of 54,400 kilometres thereby committing the Government to funding approximately 1/3 of Saskatchewan's municipal road system. To facilitate road planning, traffic studies were carried out on 2,500 kilometres of road by our staff. Origin-destination, vehicle classification and speed studies were carried out at several locations.

Summer staff also conducted inventory in 69 rural municipalities to update our road inventory and planning maps.

The rural road inventory provides an essential information base of existing roads and standards, farm homes, industries, resort developments, etc. that is required in planning and assessing the roadway needs in each rural municipality. In addition, the road class information is one of the input factors in the calculation of the unconditional revenue sharing grant.

Under Branch supervision consulting engineers conducted traffic studies in 58 rural municipalities.

The traffic study data forms the basis for designating roadways eligible for provincial assistance, funding of grants and road design standards.

The traffic data is in regular demand by various government agencies and rural municipalities which rely on the data to establish their construction and maintenance priorities.

The Branch was responsible for setting up Timber Haul Road Maintenance agreements in ten rural municipalities whereby the Department of Rural Development pays 100 percent of the maintenance cost on the designated haul routes up to a maximum of 3.1¢/cord/km. The maintenance agreements compensate rural municipalities for road damages caused by over-weight hauling of timber.

Reduced speed zone requests from ten rural municipalities were assessed and recommendations were provided to the Highway Traffic Board.

Research

In the fiscal year 1982-83, the focus of the research division was directed at ensuring that department programs reflected the changing needs of rural municipalities.

Major research responsibilities included:

- Review and development of rural programs.
- On-going research into rural revenue sharing to ensure equitable distribution of conditional and unconditional funding.
- Research into municipal financing.
- Monitoring new developments in rural local government that included reviewing any legislation having an impact on rural municipalities.

Research studies undertaken during the year included:

- Conducting a survey of all rural municipalities to assess various economic issues and gravel resources.
- Rural impact of heavy oil development in Lloydminster area.
- Review of potash tax sharing formula.
- Annual mill rate survey.
- Assessing the financial situation of northern rural municipalities, former L.I.D.s.
- Studying provincial policy on grants-in-lieu of property tax payments to municipal governments.
- Analyzing population trends relating to rural municipal governments.
- Analyzing the organized hamlet grant structure.

Revenue Sharing

The Branch was responsible for reviewing and updating the input into the equalization grant formula to ensure an equitable distribution of funds. The Branch determined the distribution of $14,242,146 unconditional revenue sharing funds to rural municipalities for the 1982-83 fiscal year.

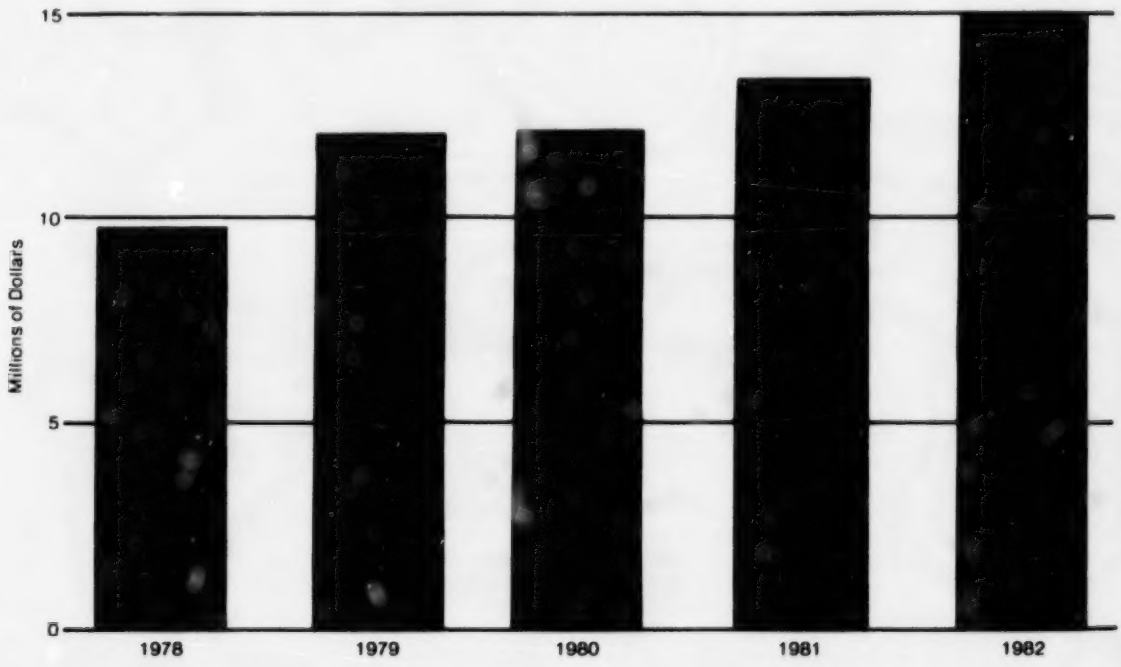
The Branch also determined the Main Farm Access construction assistance rate for each rural municipality. This rate forms the basis of provincial assistance for all our road assistance programs.

The Branch was responsible for the distribution of the organized hamlet grants. For the 1982-83 fiscal year $704,044 was allocated to 143 hamlets.

The grant consisted of a base amount and a per capita grant to assist small communities in providing services.

Unconditional Revenue Sharing Grants

(Including Organized Hamlets)



Traffic Safety

An expanded Traffic Safety Program was implemented on April 1, 1982. This program provided assistance to rural municipalities for traffic safety countermeasures which included signing, clearing of sight triangles, centre striping and intersection improvement. During 1982-83, 39 rural municipalities participated in this program.

In co-operation with the Department of Highways and Transportation, centre striping was carried out on 86 km of surfaced grid road in thirteen rural municipalities.

Through the "Traffic Accident Information System" this Branch, in conjunction with the district office staff, is able to monitor and analyze municipal road traffic accidents to identify and correct roadway deficiencies. Throughout the year, a number of recommendations were made to rural municipalities to improve potentially hazardous locations.

Year end accident information is forwarded to rural municipalities. This information enables rural municipalities to take corrective action and contribute to reducing the municipal accident rate and the economic loss. The economic loss due to property damage alone was $10.7 million in 1982.

The Branch set up a traffic safety display at North Battleford and Prince Albert in conjunction with the S.G.I. Safety Fairs. A display was also set up at the Regina Agribition. The display promoted traffic safety on the municipal road system.

There has been a significant reduction in the number of accidents, fatalities and injuries on the municipal road system during 1982. These reductions can be partly attributed to the Traffic Safety Program.

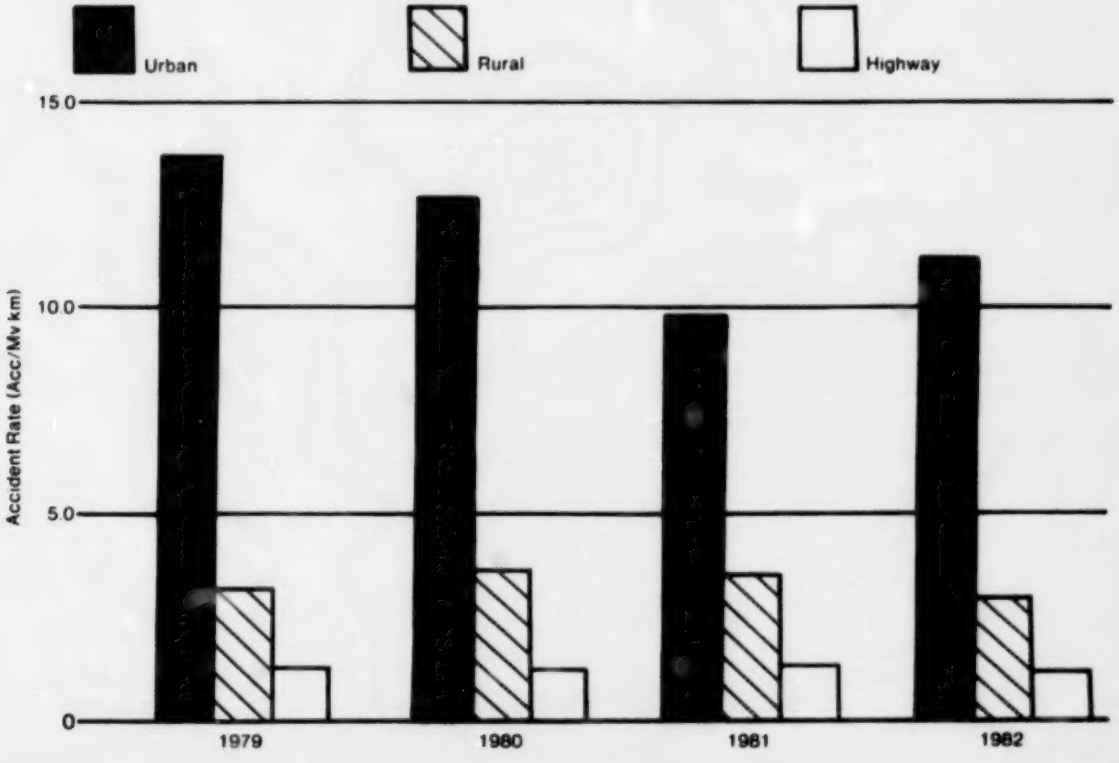
Signing

The Branch is responsible for developing and monitoring sign standards and specifications to ensure that municipal signing conforms to the Canadian standards. New signs and signing techniques and materials are evaluated and adopted for use on the municipal road system.

Sign projects during the year included:

- Co-ordinated with the Rural Municipalities the installation of Primary Grid route markers.
- Developed a maximum weight sign to post those municipal bridge structures that cannot carry legal loads.
- Evaluated a flexible fiberglass support used for delineation and hazard markers.
- Printed a Traffic Sign Handbook for municipal sign crews to assist them with the installation of traffic signs

Trends in Accident Rate by Road System



Rural Municipal Roads — 1982

Severity of Accidents by Month

Month	Number of Cases: Property Damage	Personal Injury	Fatal	Total	Number of Victims: Injured	Killed	Single Vehicle Accidents	Motorcycle Accidents	Bicycle Accidents	Pedestrian Accidents	Estimated Damage

Ferry Services

Fifteen cable ferries were in operation during the 1982 ferry season, ten on the South Saskatchewan River, four on the North Saskatchewan River and one on the Saskatchewan River.

Ferry service commenced on the South Saskatchewan River at the Lemsford Ferry crossing on April 24 and on the North Saskatchewan River at the Paynton Ferry crossing on April 30. On May 11, ferry service commenced at the Riverhurst Ferry crossing and continued until December 8. The Riverhurst Ferry operates across Lake Diefenbaker. The Cumberland House Ferry crossing, located on the Saskatchewan River, commenced service on April 28 and continued until November 11.

A ferry maintenance crew of seven was employed during the year to carry out all necessary construction and maintenance programs.

The total cost of operations, maintenance and improvements ending March 31, 1983 was $1,468,757.66.

Bridge Services

The Bridge Services Branch administers a program under which financial and technical assistance is provided to rural municipalities for the construction and repair of municipal bridges under their jurisdiction.

Technical assistance consists of carrying out inspections, engineering designs, determining load carrying capacities and providing recommendations on bridge problems.

Financial assistance is provided at rates varying from 20% to 80% for bridges from 6 metres to 30 metres in length. For bridges greater than 30 metres in length, financial assistance at the rate of 100% is provided on bridge construction and repair costs.

During the 1982-83 fiscal year, funding for the bridge program and project expenditures were the largest in the history of the program, with 3.0 million being expended. Financial assistance was provided to 84 rural municipalities. Approximately 83% of the total bridge expenditures were made for bridge projects on designated roads, such as primary grid, grid and main farm access roads. These projects were given priority because of the greater traffic volumes served and also to co-ordinate bridge construction with new road construction.

The replacement of larger substandard bridges was again given considerable emphasis as approximately 65% of the total expenditures were made on larger bridge projects with the Department paying 100% of the costs for these projects.

Under the direction of the Bridge Services Branch, construction and repair for the majority of municipal bridges was carried out by the bridge construction crews of Saskatchewan Highways. Culvert installations were carried out either with municipal equipment or by road construction contractors.

Because of the present economic advantage, the use of corrugated steel culverts in lieu of smaller bridges continued to be a popular choice, particularly in view of the new corrugation profiles that are available for helical corrugated steel culverts.

During the 1982-83 fiscal year, approximately 170 bridge inspections were carried out by the branch, with corresponding reports and recommendations being forwarded to the municipalities. In addition to the design of new drainage structures, work also included making arrangements to have new bridges constructed.

The bridge projects receiving financial assistance during the 1982-83 fiscal year are summarized as follows:

Summary of Bridge Program

Construction — Larger Bridges (100% Funded)

Rural Municipality	Location	Description
Indian Head #156 and Abernethy #186	On a grid road north of Sintaluta over the Qu'Appelle River.	3 span bridge, 36 metres long, precast concrete superstructure.
Good Lake #274	On a main farm access road west of Canora over the Whitesand River.	3 span bridge, 39 metres long, precast concrete superstructure.
Keys #303	On a primary grid road northeast of Canora over the Assiniboine River.	3 span bridge, 54 metres long, precast concrete superstructure.
Harris #316	On a main farm access road northwest of Harris over the Eagle Creek.	3 span bridge, 45 metres long, precast concrete superstructure.
Hudson Bay #394	On a grid road south of Hudson Bay over the Etomami River.	3 span bridge, 54 metres long, precast concrete superstructure.
Redford #379 and Tramping Lake #380	On a main farm access road east of Tramping Lake over the Tramping Lake.	A causeway, approximately 400 metres long.
Hillsdale #440	On a main farm access road south of Waseca over the Battle River.	5 span bridge, 72 metres long, precast concrete superstructure.
Torch River #488	On a main farm access road southwest of Choiceland over the White Fox River.	3 span bridge, 36 metres long, precast concrete superstructure.

Total — 8 Larger Bridges

Construction — Standard Pile Bridges

Spans & Total Length	No. of Projects
1 span, 6 metres	1
1 span, 12 metres	6
1 span, 15 metres	1
1 span, 18 metres	1
2 spans, 12 metres	1
3 spans, 18 metres	1
3 spans, 30 metres	1
4 spans, 24 metres	1
Total — Standard Pile Bridges	**13**

Construction — Larger Corrugated Steel Culverts

Culvert Diameter	No. of Projects
2200 mm	2
2400 mm	2
2700 mm	3
3000 mm	4
3360 mm	3
3670 mm	2
4300 mm	1
4920 mm	2

Total Repair Projects	**49**

Miscellaneous Bridge Projects

Description	No. of Projects
Small Culverts in lieu of bridges	27
Low Level Crossings	4
Renovations	1
Bridge Extensions	2
Channel Improvements	2
Riprap Installation	3
Total Miscellaneous Projects	**39**

Financial assistance was also provided on the remaining costs for 5 larger bridges undertaken in 1981-82.

Road Services

The Road Services Branch consists of a Director and three Regional Engineers located in Regina, with six district offices located throughout the province. The Regional Engineers supervise the south region consisting of the Swift Current and Weyburn districts, the north-east region made up of the Yorkton and Prince Albert districts, with the Saskatoon and North Battleford districts making up the north-west region.

The Road Services Branch of the Department of Rural Development provides technical and financial assistance to municipalities for the construction, oil surfacing and maintenance of designated roads according to program eligibility.

The designated road programs administered by the branch include the following:

Grid Roads — this program, consisting of an all-weather road system of inter-connecting municipal roads, initially began in 1956 with 19 000 km and later expanded to 26 000 km. Although construction was completed by April, 1976, maintenance assistance is provided.

Primary Grid Roads — this program began officially in 1977 and consists of 8 100 km of the more important grid and main farm access roads. Construction and oil surfacing assistance are available for all primary grid roads.

Main Farm Access Roads — this program began in 1967 as a secondary grid system to provide all-weather access roads to as many farm sites as possible.

Regional Park Roads — designated roads to regional parks are eligible for construction and oil surfacing assistance.

Oil and Industrial Access Roads — this program provides assistance for those roads carrying a large amount of traffic, associated with the oil or other industries.

Resort Roads — this program provides assistance for roads that carry a substantial amount of tourist traffic, particularly during the summer months.

Indian Reserve Access Roads — this program began in 1979 and provides assistance for construction of access roads to Indian Reserves.

Indian Reserve Roads — this program involves designated roads on Indian Reserves. Construction costs are shared between the federal and provincial governments.

Engineering services are available through six district offices located in North Battleford, Saskatoon, Prince Albert, Yorkton, Weyburn and Swift Current.

Design and Engineering

The district engineering staff of the Department carried out alignment surveys, drainage, special and related construction surveys in 229 rural municipalities and 12 urban municipalities. Complete road designs and construction engineering were provided on 16.9 km in 12 rural and urban municipalities.

A total of 1 429.9 km of road designs were submitted by consulting engineers to district offices for checking and approval by our staff.

Construction

During this season 232 rural municipalities and 19 urban municipalities constructed a total of 1 270.9 equivalent km of designated roads. This total is made up of 336.6 km of primary grid, 835.9 km of main farm access, 26.7 km of regional park, 52.7 km resort, 15.3 km industrial access and 3.7 km of Indian Reserve access roads.

The excavation price of projects tendered in 1982 varied from a low of 62¢/m^3 in the Swift Current district to a high of $1.30/$m^3$ in the Prince Albert district, with a provincial average of 83.2¢/m^3. The average cost of construction on roads built to a main farm access standard was $14,900.00/km and the average cost of construction for primary grid roads was $18,100.00/km.

The average cost of construction contracts tendered in 1982 amounted to approximately $70,000 per contract.

One of the highlights of the construction season was the construction of a road across Tramping Lake. Tramping Lake is a long narrow lake situated in the bottom of a valley running in a north-south direction near the centre of the North Battleford district. Although the lake is just over 0.5 km in width, it has formed a natural barrier without any road crossings for its entire 45 km (28 mile) length. This year Saskatchewan Rural Development assisted the Rural Municipality of Tramping Lake No. 380 and the Rural Municipality of Reford No. 379 in constructing a causeway across the lake. The causeway is located near the middle of the lake on a main farm access road six miles east of the village of Tramping Lake. Although there has been some problems with settlement of the grade across the lake, the road was opened to the public in the fall of 1982 and hopefully will serve as an important transportation link for many years to come. The total cost of the project was just under a quarter of a million dollars. This includes the cost of a drainage structure which is large enough to accommodate the passage of small pleasure boats.

Reconstruction

During the 1982 season, 83 R.M.s and 5 urban municipalities reconstructed the equivalent of 301.9 km of the designated road system. This reconstruction is made up of 207.6 km of grid, 92.6 km of main farm access, 1.6 km of resort road and 0.1 km of regional park road.

Oil Surfacing

109.2 km of oil surfacing were completed under the primary grid and regional park programs. 20 R.M.s and 7 urban municipalities participated in the two programs.

The cost of oil surfacing in 1982 averaged $24,400.00/km.

In the Swift Current district the surfacing program was highlighted by the asphalt surfacing of 9.7 km of primary grid road in the R.M. of Wood River No. 74 near Woodrow, Saskatchewan at a cost of approximately $285,000.00. This section of road was dedicated as the "Archie Clampitt Road" at an opening ceremony at Woodrow on October 29, 1982 in memory of Mr. Clampitt's long association with the Municipal Road Assistance Authority as Director and as Deputy Minister of Municipal Affairs, Rural Division. The text of the dedication, given by Deputy Minister, Mr. D. V. Gilewich, is found in the December 1, 1982 edition of The Rural Councillor.

Oil Surfacing Maintenance

In 1982, 850.4 km of oil surfaced roads were eligible for oil surfacing maintenance assistance. The Department assisted 37 rural and urban municipalities on oil surfacing maintenance costs of $1,032,942.00 at a rate of 50%.

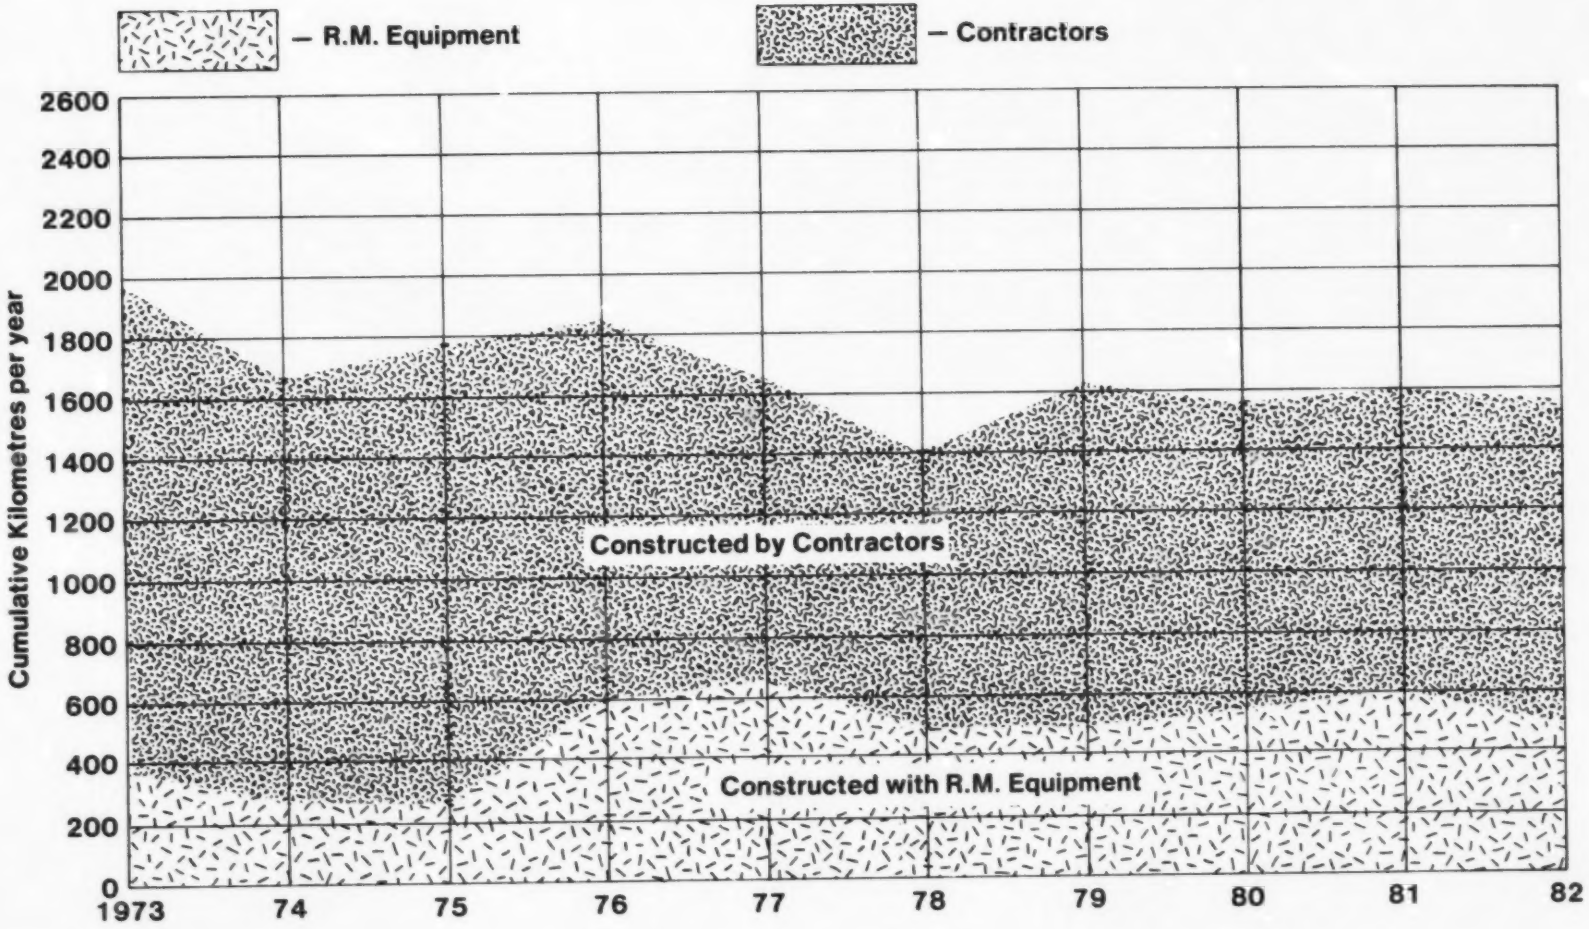
Regular Maintenance

In 1982, 21 547.0 km of road were eligible to receive normal maintenance assistance of $60/km and 2 777.4 were eligible to receive $70/km for extra maintenance. These constructed roads in the grid, primary grid, regional park, resort and industrial access programs all qualify for this assistance. In all, 298 R.M.s and 169 urban municipalities were eligible for assistance under this program.

Roads on Indian Reserves

The Department assisted one Indian Reserve on the completion of construction of a 0.7 km main farm access project. Regular maintenance assistance was available at $60/km on 307 km and 72 km were eligible for extra assistance at $70/km in 47 Indian Reserves.

Annual Construction - All Programs



Completion Status of Designated Road Programs

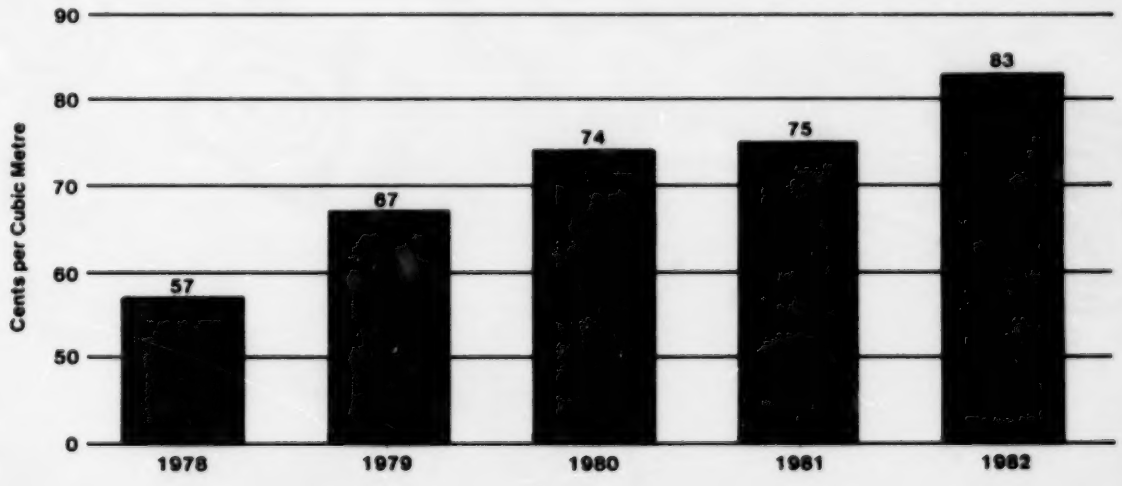
Average Annual Cost of Excavation (Tendered Contracts)



Rural Development 1982 Grant Structure For Designated Roads

Type of Road	Construction	Extra Assistance	Maintenance Assistance	Reconstruction Assistance	Oil Surfacing Assistance	Remarks
Grid	Grid construction program discontinued as of April 1, 1976.	N/A	Maximum of $60.00 per km divided between surface maintenance and right-of-way maintenance. $70.00 per km on designated locations where traffic exceeds 150 v.p.d. Maintenance grants paid on field reports. Accounts not required.	Basic main farm access percentage. Grant earned forms part of M.F.A. and primary grid road program allotment.	N/A	
Main Farm Access	Basic main farm access percentage. Based on equalization grant formulae. Varies from 40% to 60%.	Normal main farm access percentage. (a) Extra 15% on costs over $3,000 per km. (b) Extra 10% on costs over $6,000 per km.	N/A	Basic main farm access percentage. Grant earned forms part of M.F.A. and primary grid road program allotment.	N/A	Basic percentage may vary from year to year.
Primary Grid	Varies from 50% to 70%. Main farm access percentage for individual municipality, plus 10%. Assistance available only for construction to primary grid standards.	Extra 15% on costs over $9,000 per km.	For subgrade and right-of-way maintenance, it is the same as 'Grid'. 50% assistance for oil surface maintenance.	(Same as under 'Construction' and 'Extra Assistance').	(Same as under 'Construction' and 'Extra Assistance').	
Roads on Indian Reserves	Rural Development pays 100% of initial construction and gravel. Province reimbursed 80%. Applies to main farm access, primary grid and resort.	N/A	For sub-grade and right-of-way maintenance, it is the same as 'Grid'. 50% assistance for oil surface maintenance on primary grid. Recommend I.R. co-operate with R.M. for oil surfacing maintenance.	(Same as under 'Construction').	Primary Grid only (Same as R.M.).	Grant earned does not form part of M.F.A. and primary grid road program allotment.
Indian Reserve Access	Rural Development pays 80% of initial construction and gravel.	N/A	N/A	N/A	N/A	Construction grants earned form part of M.F.A. and primary grid road program allotment.
Industrial Access (Includes Oil Access)	Basic main farm access percentage	(a) Plus 20% (b) Extra 15% on costs over $3,000 per km. (c) Extra 10% on costs over $6,000 per km. (d) Maximum Rural Development share 80%	(Same as Grid).	Basic main farm access percentage, plus 20%.	N/A	Construction grants earned form part of M.F.A. and primary grid road program allotment.

Rural Development 1982 Grant Structure For Designated Roads

Type of Road	Construction	Extra Assistance	Maintenance Assistance	Reconstruction Assistance	Oil Surfacing Assistance	Remarks
Resort	Basic main farm access percentage	(a) Plus 15% (b) Extra 15% on costs over $3,000 per km (c) Extra 10% on costs over $6,000 per km (d) Maximum Rural Development share 90%	(Same as Grid)	(Same as under 'Construction' and 'Extra Assistance')	N/A	Construction grants earned form part of M.F.A. and primary grid road program allotment.
Regional Park Access	Basic main farm access percentage	(a) Plus 30% (b) Extra 15% on costs over $3,000 per km (c) Extra 10% on costs over $6,000 per km (d) Maximum Rural Development share 90%	(Same as Grid for sub-grade and right-of-way) 50% assistance for the maintenance of oil surface.	(Same as under 'Construction' and 'Extra Assistance')	(Same as under 'Construction' and 'Extra Assistance').	Construction grants earned form part of M.F.A. and primary grid road program allotment.
Town and Villages	70% assistance for all designated roads	N/A	(Same as Grid) No assistance for M.F.A.	(Same as under 'Construction')	Primary grid and regional park access only. (Same as under 'Construction') Recommend towns and villages co-operate with R.M. for oil surfacing maintenance.	
Bridges	(a) Bridges over 30.5 metres in length: 100% (b) Bridges 6.1 metres to 30.5 metres in length: Standard bridge assistance rate from 20% to 80% determined from formula based on number of bridge units and assessment. (e.g.) 20% = assess. of $384,000/unit or greater. For bridges on designated roads, assistance at the higher of standard bridge rate or appropriate main farm access rate, plus 10% for bridges on primary grid.	N/A	(a) Bridges over 30.5 metres in length: 100% (b) Bridges 6.1 metres to 30.5 metres in length: R.M. pays first $200.00. Assistance on balance of costs at standard bridge assistance rate. For bridges on designated roads, assistance at the higher of the standard bridge rate or appropriate main farm access rate, plus 10% for bridges on primary grid.	N/A	N/A	Bridges 24.4 metres to 30.5 metres are eligible for extra construction assistance.

Municipal Management and Finance

The main function of the Branch is to provide consultative and review services to elected and appointed rural municipal officials in all aspects of municipal law, administration and accounting.

These services are provided by mail, telephone and during periodic visits to municipal offices, during which time municipal records are inspected. Specific problems and alleged improper conduct of municipal operations are investigated. A report on each visit is subsequently prepared for submission to the Minister and to the Reeve of the rural municipality. The report indicates any deficiencies and recommends remedial procedures to improve municipal administration.

During the year, detailed reviews of the records maintained by twenty-five secretary-treasurers applying for a Class "A" or Superior "A" Certificate of Qualification were conducted for the Board of Examiners. Members of the branch also conducted 117 routine reviews of municipal records and made 133 advisory calls at municipal offices. Fifty-eight special interviews were conducted with municipal officials and thirty-seven council meetings were attended. Staff members expended forty-seven days attending conventions of the S.A.R.M. and the R.M.S.T.A.

Grants totalling $70,600 to municipalities for sixteen trainees enrolled in The Municipal On-The-Job Training Program were processed as were the municipal bylaws and tax cancellations submitted for Ministerial Approval. Fidelity bonds for all rural municipal treasurers were monitored. The Supervisor of Boundaries processed Orders for ten Organized Hamlets.

The Director, as the departmental legislative officer, prepared and processed necessary legislative and regulatory amendments.

Where rural municipalities are unable to obtain the services of qualified secretary-treasurers, the branch reviews each application and makes recommendations concerning the issue of permits to those rural municipalities employing unqualified persons as secretary-treasurer.

Annual financial statements, submitted by municipal auditors, and other financial reports for all 299 rural municipalities are monitored to evaluate financial strength, identify statutory and administrative deficiencies and determine where assistance is required to ensure adequate financing of municipal programs. Information obtained from these sources is compiled for report to Statistics Canada.

The following statistical schedules have been prepared from the information contained in the 1981 financial statements of rural municipalities.

Revenues for Rural Municipalities

Revenues and Expenditures

General revenues and expenditures increased in 1981. The total combined revenues of all rural municipalities for the year 1981 exceeded the combined expenditures by $3,686,148 dollars. Transfers from reserves and surplus exceed provisions for reserves by $889,787. The surplus on 1981 operations was $2,796,361.

* 1976 Revenues and Expenditures have been adjusted to reflect current fiscal reporting.

Assets and Liabilities

The liquid financial position, which indicates the ability to meet current financial obligations of the revenue fund was strengthened during the year. Two hundred and eighty-five rural municipalities had an operating surplus for the year and the operation of fourteen rural municipalities resulted in a deficit. Reserves and surpluses continue to be maintained at an adequate level.

Saskatchewan Rural Development appreciates the continued co-operation and assistance received from local authorities, including the appointed municipal secretary-treasurers in dealing with municipal problems and supplying information for this segment of the annual report.
